

REFERENCE CHECK FORM

DATE: April 14, 2016

Applicant Name: Sandra Nadelson

Length time known: 2 Years

How do you know this person?: Dr. Nadelson and I were both faculty at Idaho State University and are currently both faculty at Utah State University. As a colleague, mentor, and preceptor, she excels. She has played a significant and important role in my transition from the acute care environment to academia.

Please rate the following:

Team Player: Poor Below Average Average Above Average Superior
Organizational Skills: Poor Below Average Average Above Average Superior
Communication Skills: Poor Below Average Average Above Average Superior
Student Orientated: Poor Below Average Average Above Average Superior
Ability to Research: Poor Below Average Average Above Average Superior

Additional comments (anything you would like to add):

Sandie has become my academic role model here at USU. As my director she is more a friend and colleague; there is nothing she would not do to help me be successful in my role as faculty. If I email or text her with an issue or a request for help not only do I hear from her immediately, she consistently provides sage advice as well as links to professional sites that will assist me in my quest to become a more proficient educator. I don't hesitate to go to her for anything from student issues to concerns in my personal as well as professional life. She is consistently open, encouraging, rewarding, and never makes me feel as though I'm not doing a good job. I admire her and want to emulate her as an educator. Texas A&M is already an excellent institution of learning; Sandie Nadelson will make it even better! She has my wholehearted support as a reference for a faculty position in your School of Nursing. Thank you for the opportunity to speak on behalf of my friend and colleague, Dr. Sandie Nadelson.
